
ENERGY MANAGEMENT POLICY

TART is a leading manufacturer and supplier of packaging materials, machinery and support services to the packaging industry with a broad base of specialists both domestically and internationally.

In its business, it complies with applicable national and supranational legislative requirements and the requirements set by our company, in which it sets and accepts commitments regarding the reduction of consumption and efficient use of energy in all areas of business.

The Company and its management understands this policy as a long-term intention and commitment to all stakeholders and recognizes the importance of long-term energy reduction in the course of its business activities in the form of reducing energy consumption and costs, or efforts to use renewable and secondary energy sources-

Targets for energy management in society

Where opportunities and efficiencies allow, exploit the potential for energy savings in all facilities used by the company, in the provision of products and services, including logistics and cooperation with external suppliers.

To achieve this goal, we are committed to:

- Ensuring that information is available, up-to-date and planning and resourcing to meet the objectives.
- Promote the purchase of energy efficient products and services

- Increase energy efficiency and cost-effectiveness in relation to the reduction of CO2 emissions
- Monitor established KPIs and ensure that measures put in place to improve the effectiveness of energy management targets do not negatively impact product quality, staff and other stakeholders

Communication and staff awareness

Motivate employees to behave in an environmentally friendly manner and make suggestions to optimise energy consumption in the working environment. They can submit their suggestions in the form of "Suggestions for improvement" in IS Target. We provide information and education to our employees in an appropriate manner and to an appropriate extent so that they can react and work in accordance with the principles of ~~energy~~ conservation.
